Checklist: review the report before you accept it

- [ ] There is an executive summary a non-technical reader can follow.
- [ ] Scope, test dates and what was not tested are stated.
- [ ] The method and standards used are described.
- [ ] There is a summary table of findings with severity levels.
- [ ] Every finding has evidence and reproduction steps.
- [ ] Every finding states the business impact and a concrete fix.
- [ ] The report explains how severity was scored (CVSS, business context).
- [ ] Sensitive data in the evidence is masked.
- [ ] When and how the retest happens is agreed.

Want to go through this checklist together? Write to us and we will review your scope.
